

**CLAIMS:**

What is claimed is:

1. A method of conducting a wagering game, comprising:  
 receiving a wager to play the wagering game;  
 5 displaying a plurality of incomplete offers;  
 allowing a player to accept at least one of the plurality of incomplete offers;  
 and  
 after the player accepts the incomplete offer, completing the plurality of offers  
 and awarding the accepted offer to the player.  
 10
2. The method of claim 1, wherein the plurality of incomplete offers are  
 associated with respective awards that change after the player accepts the incomplete  
 offer.
- 15 3. The method of claim 1, wherein the plurality of completed offers are  
 associated with respective final awards that do not change.
4. The method of claim 1, further including conducting a basic game, the  
 displaying step occurring in response to a special outcome in the basic game.  
 20
5. The method of claim 4, wherein the step of conducting a basic game includes  
 rotating and stopping a plurality of simulated or physical reels to place symbols on the  
 reels in visual association with a display area.
- 25 6. The method of claim 1, further including initially associating one or more of  
 the incomplete offers with the player prior to the step of displaying a plurality of  
 incomplete offers.
7. The method of claim 1, wherein the allowing step includes allowing the player  
 30 to change which of the incomplete offers is associated with the player.
8. A gaming apparatus for conducting a wagering game, comprising:  
 a value input device for receiving a wager to play the wagering game;

a display for displaying a plurality of incomplete offers; and  
 a processor operative to

allow a player to accept at least one of the plurality of incomplete  
 offers; and

5 after the player accepts the incomplete offer, complete the plurality of  
 offers and award the accepted offer to the player.

9. The apparatus of claim 8, wherein the plurality of incomplete offers are  
 associated with respective awards that change after the player accepts the incomplete  
 10 offer.

10. The apparatus of claim 8, wherein the plurality of completed offers are  
 associated with respective final awards that do not change.

15 11. The apparatus of claim 8, wherein the processor is operative to conduct a basic  
 game, and wherein the display is adapted to display the plurality of incomplete offers  
 in response to a special outcome in the basic game.

12. The apparatus of claim 11, wherein the basic game includes a plurality of  
 20 simulated or physical reels that are rotated and stopped to place symbols on the reels  
 in visual association with a display area.

13. The apparatus of claim 8, wherein the processor is operative to initially  
 associate one or more of the incomplete offers with the player prior to the display  
 25 displaying the plurality of incomplete offers.

14. The apparatus of claim 8, wherein the processor is operative to allow the  
 player to change which of the incomplete offers is associated with the player.

30 15. A method of conducting a wagering game, comprising:  
 receiving a wager to play the wagering game;  
 initially associating one or more of a plurality of incomplete offers with a  
 player;  
 displaying the plurality of incomplete offers;

allowing the player to change which of the incomplete offers is associated with the player; and

after the player changes which of the incomplete offers is associated with the player, completing the plurality of offers and awarding the associated offers to the player.

5

16. The method of claim 15, wherein the plurality of incomplete offers are associated with respective awards that change after the player changes which of the incomplete offers is associated with the player.

10

17. The method of claim 15, wherein the plurality of completed offers are associated with respective final awards that do not change.

18. The method of claim 15, further including conducting a basic game, the displaying step occurring in response to a special outcome in the basic game.

15

19. The method of claim 15, wherein the plurality of incomplete offers include respective credit amounts that accumulate at different rates on a display.

20. The method of claim 19, wherein each credit amount accumulates at a respective rate that fluctuates over time.

20
